RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

6.00 RULES GOVERNING SANITARY SEWAGE SERVICE

6.01 No Customer or Owner or occupant of premises receiving sewer service shall discharge, cause to be discharged, allow to be discharged or permit to be discharged any storm water, surface water, roof run-off, surface drainage, groundwater drainage, footing drainage, window well drainage, driveway drainage, garage floor drainage, patio drainage, downspout drainage, crawl space drainage, non-sanitary basement floor drainage, non-sanitary sump pump drainage, cooling water, unapproved industrial process water, or any other non-sanitary sewage drainage into the Collection Sewer or into the building sewer service connection so as to reach said Collection Sewer. No Customer or Owner or occupant of premises receiving sewer service shall connect, cause to be connected, allow to be connected or remain connected or permit to be connected or remain connected, any sump pump or other pumping device for draining window wells, footings, patios, garages, driveways, downspouts, crawl spaces or other non-sanitary drainage areas, or any footing, window well, driveway, patio, garage, downspout or other non-sanitary sewage drain to the Collection Sewer or to any building sewer service line which connects to said Collection Sewer.

6.02 Neither the applicant nor any occupant of the premises shall discharge, or cause to be discharged into the Sanitary Sewage Service Connection or Collection Sewer, any of the following described waters or wastes:

- a) any liquid or vapor having a temperature higher than 150° F;
- b) any water or waste which may contain more than fifty (50) parts per million by weight of fat, oil or grease;
- c) any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas;
- d) any garbage that has not been properly shredded through a disposal unit or other shredding device;

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

- e) any ashes, cinders, sand, mud, straw, shavings, metal, glass, tar, wood or any other solid or viscous substance capable of causing obstruction to the sewers, mains or outlets or the proper operation of said sewer system;
- f) any water or waste having a toxic or poisonous substance in sufficient quantity so as to constitute a hazard to humans or animals;
- g) any noxious or malodorous gas or substance capable of creating a public nuisance;
- h) any water or waste containing more than two hundred and fifty (250) parts per million by weight of suspended solids;
- i) any water or waste containing more than two hundred (200) parts per million by weight of Biological Oxygen Demand or
- j) any water or waste having a pH less than 5.0 or greater than 9.0, or having any other corrosive property capable of causing damage or hazard to structures, pipes, equipment and personnel of the sewer system. The term "pH" as used in this subparagraph shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

6.03 Neither the applicant nor any occupant of the premises shall discharge, or cause to be discharged, into the building sewer service connection or into the Collection Sewer any "industrial wastes" consisting of solids, liquids or gaseous wastes resulting from any industrial or manufacturing operation or process, or from the development of any natural resource, without first obtaining written permission for such discharge from the Manager of the Company, and from any regulatory authority or governmental unit having jurisdiction over such a discharge of wastes.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

- 6.04 Either the applicant or any occupant of premises or properties served by a building sewer service connection carrying industrial wastes and discharging the same into a Collection Sewer shall, when required by the Company, install a suitable control manhole in the building sewer service connection to facilitate observation, sampling and measuring of such wastes. Such required manhole shall be accessible to the Company and safely located, constructed in accordance with plans approved by the Company and installed and maintained at the expense of the applicant or occupant of the premises to which sewer service is supplied.
- 6.05 Water pressure ejectors or siphons shall not be installed for the discharging of sewage or waste unless adequately protected against back siphonage.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

7.00 GENERAL CONDITIONS

- 7.01 Sanitary sewage service will not be furnished where Owner's/Customer's Service Lines are broken, obstructed, inferior, defective, leaky or imperfect, so that sewage or drainage escapes into surrounding soil or into adjacent premises, or ground or surface water or other matter enters the sewer. When such conditions are discovered, the Company reserves the right to discontinue service unless immediate repairs or replacements are made. Such replacements or repairs shall be made by and at the expense of the Owner/Customer.
- 7.02 Title to the Collection Sewers and to all of the Sanitary Sewage Service Connections from the Collection Sewer to the property line or easement line of the Customer is vested in the Company and these shall at all times remain the sole property of the Company and shall not be trespassed upon or interfered with in any way.
- 7.03 The Customer is responsible for maintenance of the Owner's/Customer's Service Line.
- 7.04 The Company undertakes to use reasonable care and diligence to provide continuous sanitary sewer service but reserves the right to temporarily interrupt service for the purpose of effecting repairs and improvements to its sanitary sewer collection system. In such situations, the Company, when practicable, will give advance notice to all Customers affected by the interruption, stating the probable duration of the interruption of service.
- 7.05 All employees of the Company whose duty compels them to enter the Customer's premises shall, upon request, show their credentials or other evidence of authority.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

8.00 DISCONTINUANCE OF SERVICE

8.01 The Company reserves the right, upon providing not less than five (5) days hand-delivered written or eight (8) days mailed written notice to the Customer, to discontinue water and sewer service for non-payment of sewer bills and deposit requests or for violation of or refusal to comply with the rules and regulations of the Company on file with the ICC at the time of providing such notice.

8.02 Restoration of service or reconnection of a service connection will be made at the Company's discretion after the Customer has:

- a) paid all unpaid bills for service;
- b) made a deposit to ensure future payment of bills;
- c) reimbursed the Company for any labor, material and associated restoration costs involved in disconnecting and reconnecting service; and
- d) corrected any condition found in violation of any applicable provision of these Rules, Regulations and Conditions of Service.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

9.00 CERTIFICATE OF COMPLIANCE WITH RULE 6.01

9.01 The Company has the right to give written notice to Customers to extend to each such Customer a period of four (4) months from the date of such notice to make an appointment at a mutually convenient time for inspection by the Company of the Customer's premises to determine whether the Customer is in compliance with Rule 6.01. The Company reserves the right to give such notices and to schedule such appointments on an area basis to accommodate availability of personnel.

a) Should an inspection take place and the Company find compliance with Rule 6.01, the Company will issue a Certificate of Compliance for the premises.

b) Should an inspection take place and the Company find non-compliance with Rule 6.01, the Company will give written notice to the Customer describing the non-compliance and stating that the Customer shall have a period of sixty (60) days from the date of such notice to achieve compliance with Rule 6.01 and to make an appointment for another inspection by the Company.

1. Should a reinspection show compliance, the Company will issue a Certificate of Compliance for the premises.

2. Should a reinspection show non-compliance, the Company will give written notice to the Customer describing the non-compliance and the Company may disconnect water service or sewer service or both, until such customer is in compliance with Rule 6.01 and receives a Certificate of Compliance.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

3. Should the customer fail to achieve compliance and make an appointment within the sixty (60) day period referred to in subparagraph (b) above, the Company may disconnect water service or sewer service or both, until such Customer is in compliance with Rule 6.01 and receives a Certificate of Compliance.
- c) Should a Customer fail to make an appointment for inspection within the time period set forth in this Rule, or fail to permit inspection at the appointed date and time or within any time period set forth in this Rule, the Company shall give written notice of such failure. In the event that within thirty (30) days of the date of such notice the Customer fails to make an appointment for inspection, or fails to permit inspection at the appointed date and time or within said thirty (30) days period, as the case may be, the Company may disconnect water service or sewer service or both, until such Customer is in compliance with Rule 6.01 and receives a Certificate of Compliance.
- d) In the event of disconnection of water service or sewer service or both pursuant to Rule 6.01, reconnection of service shall be made only pursuant to Rule 6.01 and other applicable provisions of the tariffs of the Company, including the provisions for payment of reconnection charges.
- e) Any and all work, labor or materials required to enable compliance with Rule 6.01 shall be performed by and provided by the Customer, Owner or occupant and shall be at no cost to the Company. Whether compliance exists shall be the sole determination of the Company. However, in the event this determination is disputed by the Customer, Owner or occupant, the Company will accept a then current written opinion of a professional engineer registered in the State of Illinois that the premises are in compliance with Rule 6.01, such opinion to be submitted to the Company by the Customer, Owner or occupant and without cost to the Company. No such opinion, however, shall be accepted in lieu of an inspection.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

- f) Upon the issuance of a Certificate of Compliance and its acceptance by the Customer, the Company shall have the right to make inspection at reasonable hours and upon appointment for the purpose of determining whether compliance has been maintained.
- g) No determination by the Company that compliance exists and no engineering opinion to such effect as referred to in subparagraph (e) above shall bar subsequent inspection under the Company's rules, or subsequent determination of non-compliance, or enforcement of the Company's rules for non-compliance not discovered by the Company in any prior inspection or arising subsequently.
- h) No determination of compliance or non-compliance by the Company and no engineering opinion as to compliance as referred to in subparagraph (e) above shall bar the enforcement by the Company of any rights and remedies it may have under law, including its tariffs.
- i) The Company will inspect all new structures prior to commencement of water and sewer service thereto to determine compliance with Rule 6.01. If and when the premises are in compliance, the Company shall issue a Certificate of Compliance. No service shall be rendered to such premises unless the Owner/Customer or occupant thereof shall have been issued a Certificate of Compliance which is in effect.
- j) Non-compliance with Rule 6.01 exists when any connections or facilities are found by the Company that will permit storm water, surface water, ground water, or other non-sanitary sewage drainage to enter into the sanitary sewer, regardless of whether actual flow is observed.

RULES, REGULATIONS AND CONDITIONS OF SERVICE (SEWER)

- k) Should the Company find non-compliance after issuance of a Certificate of Compliance, the certificate shall be immediately voided and without legal effect. The Company will then give written notice to the Customer describing the non-compliance and stating that the Customer shall have a period of thirty (30) days from the date of such notice to achieve compliance with Rule 6.01 and to make an appointment for another inspection by the Company. At the time said reinspection is conducted, the Customer will be required to provide the Company with a certified statement from a licensed plumber verifying that the infraction resulting in the non-compliance status has been corrected in a manner permanent in nature that would make the possibility of reconnection highly improbable.
